

MEDICAID CLAIMING & BILLING FOR SCHOOLS

With significant K-12 education expertise and with more than two decades of consulting projects involving Centers for Medicare and Medicaid Services (CMS), PCG has built a proven national record of success in school-based Medicaid reimbursement services. We offer:

- Technology to reduce the burden on school staff;
- Superior customer service;
- Legal and regulatory experience and support;
- National and local perspective;
- Reporting capabilities to help you manage the program.

MEDICAID CLAIMING & BILLING FOR SCHOOLS

EXPERIENCE

Public Consulting Group (PCG) is a national leader in school-based Medicaid engagements. Since 1992, the firm has recovered more than \$1.5 billion in federal Medicaid funds for school district clients across the U.S. – more than any other vendor in the country. PCG works with over 1,000 clients, ranging from large urban to small rural districts.

CUSTOMER SERVICE

With 27 offices across the U.S., PCG is well positioned to serve your school district's Medicaid reimbursement needs. Our Medicaid billing and compliance experts work hard to ensure that our clients receive the highest level of Medicaid reimbursement for their school-based services. Dedicated representatives are available through the duration of each project to provide comprehensive training and ongoing audit support and guidance.

MEDICAID LEGAL AND REGULATORY ASSISTANCE

PCG retains experienced professionals to provide consulting services that assist our clients in complying with state and federal Medicaid billing requirements. By performing ongoing reviews of federal audit reports and collaborating with state Medicaid agencies, PCG is able to assess school district exposure to compliance issues, advise on best practices, and help your district retain maximum reimbursement.

ENCOURAGING THE USE OF TECHNOLOGY

PCG provides clients with a comprehensive service and offers the option to implement time-saving technology. Integrating Internet and handheld technology solutions into Medicaid reimbursement projects reduces the burden on school staff, saves time, and facilitates compliance.

EasyTrac™

EASYTRAC™ facilitates Internet and handheld documentation of health-related services to students. Clinicians can easily and conveniently document services at any time without the need for scanner forms and paper logs.

EasyAOC™

The EASYAOC™ online time study approach and random moment methodology allow for convenient documentation of administrative outreach activities that comply with federal statistical requirements. EASYAOC™ eliminates the paper chase – no more lengthy time study training required for administrative claiming!

Contact PCG to learn more about how our Medicaid reimbursement services can help your school district.
