December 15, 2010

Dear Sir or Madame:

On behalf of Clark University, I would like to take this opportunity to introduce to you Public Consulting Group – PCG. PCG is an international management consulting firm focused on achieving outstanding results for its public sector clients. Based in Boston, Massachusetts, USA, PCG opened its first European office in Lodz, Poland in May 2010.

Clark University and PCG have a well established relationship. The founder and president of PCG, William Mosakowski, attended Clark University and is now the Chairman of the Clark University Board of Directors. Mr. Mosakowski has been instrumental in promoting and supporting Clark University in Poland.

PCG offers consulting services that combine management best practices with innovative technology in the areas of special education, school evaluation, health care, and human services. Over the last 25 years, PCG has built its success on the foundation of strong relationships and collaborative partnerships with its clients.

I enthusiastically recommend PCG and encourage you to consider them as a valuable resource and potential partner. Please also help in welcoming PCG to Poland by introducing them to your esteemed colleagues familiar with education, healthcare or local government management matters. The PCG team is comprised of good listeners who are interested in meeting with and talking to those who also share a passion for the public sector and improving government services.

With many thanks and best regards,

David P. Angel, President
Clark University
