

UNIVERSITY OF TWENTE.

Enschede, September 20, 2011

Dear Madam/sir,

With this letter I would like to recommend Public Consulting Group – PCG. I have worked with PCG Poland for almost two years now in a project supported by the European Union. PCG has the lead over this project and I have been very impressed with their work for several reasons.

Firstly, their management skills are amazing. From the start they made it very clear who was responsible for each of the work packages and they made sure that every partner took their responsibility. Even though we had some difficulties on the way (e.g. people leaving their organization), they still made sure that the job got done. As a result of this, we are still on schedule to finish this EU project in an effective manner, and with great results.

Secondly, I am very impressed with their collaboration skills. Even though they are the lead partner, they make sure that everyone has input in this project. They know who to turn to for the right type of expertise, always listen to all of the partners, and try to take everyone's needs and wishes into account without putting the project's progress in danger.

Thirdly, I personally got to know several people from the PCG team. They turned out to be reliable consultants and experienced researchers, as well as great colleagues. Overall, it has been a great joy and a learning experience to work with PCG on the EU project we are undertaking and hopefully will undertake more initiatives in the future.

PCG staff's energy and enthusiasm, coupled with intelligence, careful attention to detail, professional knowledge and skills make them a perfect partner in many different kinds of projects. Therefore I have no hesitation on recommending PCG for future projects.

With kind regards,

Dr. Kim Schildkamp
