

National Leader in IV&V

A Trusted IV&V Partner

Having delivered high quality, expert IV&V services since 1996, PCG has earned a reputation as a trusted partner and premier service provider; one that helps projects succeed.

Our team has provided IV&V services on numerous complicated MES projects in recent years, including:

- ✓ Arizona Health Care Cost Containment System (AHCCCS) Administration Medicaid Enterprise System Modernization
- ✓ Louisiana Department of Health and Hospitals Medicaid Enterprise System Modernization
- ✓ North Carolina Department of Health and Human Services Medicaid Enterprise Systems Modernization
- ✓ Delaware Department of Health and Social Services Medicaid Enterprise System Modernization
- ✓ Alaska Department of Health and Social Services Medicaid Enterprise System Modernization
- ✓ Mississippi Medicaid Division Medicaid Enterprise Systems Modernization
- ✓ Hawaii Department of Human Services Eligibility and Enrollment System Modernization
- ✓ Iowa Department of Human Services Eligibility Integrated Application Solution Modernization
- ✓ Virgin Islands Department of Human Services Integrated Eligibility and Enrollment System Modernization
- ✓ Wisconsin Department of Health Services Eligibility and Enrollment System Modernization
- ✓ California Statewide Automated Welfare System (CalSAWS)

Eclipse IV&V® Certified

PCG has earned a reputation as a best-in-class IV&V service provider. Over 100 PCG consultants have been trained and certified in Eclipse IV&V®, and we are proud to be a national leader in MES IV&V through the delivery of our standards-based, repeatable, and high-value IV&V services.

Eclipse IV&V® for System Modernization

As state IT evolves, so does PCG. Our leading IV&V service delivery framework, Eclipse IV&V®, has been successfully adapted to guide our clients to successful implementations of large, complex MES projects utilizing a wide range of delivery approaches. We have assessed and verified cloud readiness on various platforms and provided the insight needed for clients to know they are ready to migrate their legacy systems to modern solution stacks.

Eclipse IV&V® for Agile and Hybrid Projects

PCG's MES IV&V delivery expertise runs deep and is proven in agile and continuous development approaches. Our experience can help bridge the gap between state teams with limited system configuration or agile experience, and vendor teams that operate fully or partially agile.

Contact PCG today to learn more about how our experience and deep expertise in IV&V services can help your agency achieve its strategic goals.
